

## Job description – Web Development

### **Who are we:**

nCircle Tech Private Limited (Incorporated in 2012) empowers passionate innovators to create impactful 3D visualization software for desktop, mobile and cloud. Our domain expertise in CAD and BIM customization is driving automation with the ability to integrate advanced technologies like AI/ML and AR/VR, which empowers our clients to reduce time to market and meet business goals. nCircle has a proven track record of technology consulting and advisory services for AEC and Manufacturing industry across the globe. Our team of dedicated engineers, partner ecosystem and industry veterans are on a mission to redefine how you design and visualize.

### **About the Position:**

We are looking for talented software engineers who have passion for developing programs in the domain of CAD/CAD/CAE/3D visualization. We at nCircle Tech aspire to be an organization that provides exciting and challenging work to build next-generation software built using the latest technologies.

### **Key responsibilities include:**

- Build the front-end of applications through appealing visual design techniques
- Develop and manage well-functioning databases and applications
- Write effective REST APIs
- Test software to ensure code quality, responsiveness and efficiency
- Troubleshoot, debug and upgrade software
- Create security and data protection settings
- Build features and applications with a mobile responsive design
- Write technical documentation
- Work with data scientists and analysts to improve software
- Address non-functional requirements like performance tuning, scalability & throughput etc.

### **This is You:**

- Experience developing web applications.
- Hands-on experience on HTML/ CSS, JavaScript, Node.js., MongoDB
- Excellent communication and teamwork skills
- Great attention to detail and meeting deadlines
- An analytical mindset with good problem-solving ability.

**Preferred Qualification:**

- B.Tech, B.E, M.Tech, MCA, MSc
- Candidate should be ready to work from Pune office
- Passed in First Class without any break
- Adaptable to work in both frontend as well as backend technologies.

**BENEFITS:**

**Our offer:**

- An environment of growth and learning
- Opportunity to work with international and multicultural clients
- Lead a young and talented team
- Flexible working times
- Team building events
- Training, books and all you need to feel empowered.
- Industry leading compensation structures
- And a Referral Bonus if you bring other talented people like you
